Re: Risk Assessment and Ecological Assessment - American Chemical
Services NPL Site - Griffith, Indiana

Dear Mr. Hudak:

Enclosed you will find one copy of the Risk Assessment and Ecological Assessment for the ACS Site. As you know, the review of this document is included as a task in the IAG between U.S. EPA and the FWS. Robin Nims has previously been the person assigned to assist me with this site from your office. I am especially interested in obtaining your review of the Ecological Assessment portion of the document, since it incorporates the results of the wetland delineation completed by your office. If you need any further information, please do not hesitate to call me at (312) 886-5116.

Sincerely,

Robert E. Swale
Remedial Project Manager
